

## How to Refer a Patient to the Emerson Hospital Frenulum Clinic

Referring a patient to the Emerson Hospital Frenulum Clinic is very simple. Once you have determined that a patient needs a frenulum evaluation or division, you can have the child's parents contact the scheduling office at (978) 287-3003 to set up an appointment.

The *additional documents* section of the Frenulum Clinic page provides additional information and reference for the child's parents.

If you have any questions about the referral process, please contact, Donna Manley, Office Manager. Donna can be reached at (978) 287-3169.
